2025 DIO Catalog

DIO FAQs

Dealer Installed Options (DIO)

DIO – Debunking the Myths

Fiction	Fact
My vehicle order will be held up from being scheduled if I include DIO accessories.	No, DIO accessories will not hold up scheduling. The system operates independently of Production Channel and Mod Center accessories.
The new vehicle will arrive before DIO accessories are made available, and this will not allow the dealer to sell the vehicle.	The expectation is that all parts for shipped from your FAD within 48 hours of the vehicle being gate released. A vehicle typically takes 2 weeks to arrive once gate released.
Dealers must fill out extensive administrative paperwork to be paid for installing DIO accessories.	No, dealers do not need to claim labor reimbursement. Labor is itemized by VIN and credited to the dealer parts statement when the vehicle is gate released from the plant.
You can't residualize or finance DIO accessories.	Yes, DIO accessories are eligible for financing and/or residualization in a Ford Red Carpet Lease.
Labor reimbursement is a flat \$120 per hour.	Starting with the 2025 model year, labor reimbursement is paid at your dealership's warranty labor rate.
